

Drinking Glass Centerpieces

Sometimes the best ideas are the simplest. This centerpiece idea gives regular secondhand drinking glasses a new life, transforming into “faux milk glass” vessels to hold a group of flower arrangements. These will undoubtedly be the star of any reception table!

You will need:

From Savers/Value Village

- Assortment of clear drinking glasses
- Tip: Feel free to gather all shapes, sizes and designs.

Other supplies

- Spray paint
- Dust mask

Directions:

1. Wash and dry each drinking glass to ensure the insides are clean and free of dust.
2. Give the insides of the glasses (not the outsides) several light coats of spray paint, allowing the paint to dry in between coats. (Tip: Wear a dust mask when doing this.)
3. Fill with your chosen flowers and arrange glasses en masse as the centerpiece.
