

# Glitter Goodies

Cast aside trinkets and toys take on a whole new look when dressed up for the holidays. Once sprinkled with glitter, even the most surprising odds and ends turn into holiday magic. Add a special sparkle to wrapped gifts or dress up place settings with a special touch for guests to take home.

## You Will Need:

### From Savers/Value Village

- Assorted small toy animals or other small interesting trinkets

### Other supplies

- Household glue
- Small paintbrush
- Glitter in desired colors (long, skinny glitter flakes work well and add interest)
- Optional – paperclip or thin wire, and hot glue (for hook, if needed)

## Directions:

- 1) Clean and dry animals and trinkets.
- 2) To create a hanging hook if the trinket does not already have one, simply bend a paperclip or small piece of wire into a loop, then hot glue it to the back of the trinket. Snip of wire ends as needed.
- 3) Use the paintbrush to spread glue evenly over the trinkets. Apply plenty to ensure the glitter has something to stick to.
- 4) While glue is still wet, liberally sprinkle glitter all over the trinket to cover. Grab by the hook to lightly shake off the excess, then set aside and let dry.
- 5) Use trinkets as accents to decorate packages, tie them around a wine bottle, string them on a ribbon and tie around napkins...and more!
