

Overhead Fixture

A perfect way to add height and colorful conversation to your reception tables is by adding a focal point that hangs above them. Let your creativity run wild, and no matter what you find, it can easily take on your color palette with a quick coat of paint and some accent pieces.

You will need:

From Savers/Value Village

- A open-air vessel with interesting dimension, such as a woven basket or tiered seashell display (pictured)
- Smaller accent pieces to fill the vessel, such as wicker balls or holiday ornaments
- Thrifted fabric in contrasting color

Other supplies

- Spray paint
- School glue other craft adhesive
- Sponge brush
- Dust mask
- Clear fishing line

Directions:

1. Once you choose your overhead fixture, apply several coats of spray paint. (Tip: Wear a dust mask when doing this.)
2. To decorate accent pieces:
 - c. Tear or cut fabric in strips.
 - d. Wrap fabric strips around accent pieces.
 - e. Using a sponge brush, "paint" the fabric onto the pieces, completely covering them with the strips.
 - f. Allow to dry completely.
 - g. Once all is dried completely, fixture with accent pieces and hang from ceiling using clear fishing line.
