Tips:

1. **STYLE:** The most important aspect to consider while shopping for a wedding gown is the silhouette and neckline. Try on a variety of different styles when you first start looking, and pay close attention to the cut of the dress. That understated vintage sheath or shiny satin ball gown may be perfect for you!
2. **FIT:** If the dress is a bit big or a bit small it can likely be altered. Seamstresses can do amazing things!
