

BEWARE BOTTLES

Double, double, toil and trouble—fire burn and cauldron bubble! Cast a spell on family and friends with these cute and simple bottle concoctions. Whether part of a centerpiece or placed in clusters throughout the house, these bewitching pieces are a perfect party touch.

You Will Need:

From Savers/Value Village

- Assortment of small glass bottles, ideally with corks (corks can also be found at craft stores)

Other supplies

- White paint pens
- Colored sand in assorted colors such as black, orange, purple or green – the choice is yours!
- Funnel

Directions:

- 1) Remove the corks, wash the bottles and allow to dry.
- 2) Place the funnel in the bottle's opening.
- 3) Carefully pour in colored sand of your choice. Bottles look extra spooky when filled to different levels.
- 4) Cork the bottles.
- 5) Using white paint pen, draw scary designs and words across the front, such as “potion,” “beware” or a skull and cross bones.
